Awarded by the Irish Institute of Credit Management

Associate or Student Members are entitled to take part in all Irish Institute of Credit Management activities and services with the exception of being able to vote at General meetings.

The Certificate Programme in Credit Management

The **Certificate in Credit Management** is essential for any business professional who is involved in any stage of company cash flows, from order management, customer service, contract negotiation, account management to accounts receivable. The Certificate in Credit Management was designed to expand participants current knowledge within commercial, legal and financial areas.

Course subjects include credit management, accounting, economics and law. Export Edge Business College will assist eligible students with applications for exemptions based upon their academic achievements.

The Irish Institute of Credit Management (IICM) is the professional and examining body for this Certificate course. Students are required to register as members of the Institute for duration of their studies. Through membership, students will have contact with the Institute. They will also be invited to attend workshops and exhibitions run by the Institute on relevant aspects of Credit Management.

AWARDS

The certification is awarded to students who successfully pass examinations and complete assignments. The exams results are notified by IICM to students within 2 months of completion of examination. Holders of the Certificate are entitled to display "A.I.I.C.M. (Cert)" if associate member, or M.I.I.C.M. (Cert) if full member, after their name.

Course Subjects / Syllabus

The part-time Certificate in Credit Management subjects are delivered over an academic year:

- **Credit Management** *Exams Jan*
- **Accounting** *Exams Jan*
- **Economics** *Exams June*
- **Law** *Exams June*

- *Examinations of two hours duration require students to answer four questions out of eight set. Assignments make up 30% of the overall marks.*

ENTRY REQUIREMENTS

- Leaving Certificate & Third level / Professional experience
- Associate membership of IICM*.

Ideally, the entrants to the course will already have commercial experience and are seeking enhanced education in business management to advance their career prospects.

** Associate or Student Members are entitled to take part in all Irish Institute of Credit Management activities and services with the exception of being able to vote at General meetings.*

Course subject

Credit Management

The **Credit Management** subject gives a practical overview of the function, the components and how to manage credit. It covers Consumer, Trade and Export issues to give students a better understanding of the topic. The course is dynamic, surprisingly commercial and focuses on building strong customer relationships and finding a way to deliver every order, and what must be in place if getting paid is important to your business.

OBJECTIVES:

As a result of completing this module the student will have a greater understanding of how to make the credit function an essential ingredient in protecting your margin, maximising collections and managing risk.

SYLLABUS CONTENT:

– Module 1

Introduction – Understanding the basics – payment terms & payment methods – credit policy – building relationships.

Getting paid – The important, the cost and the value of credit.

– Module 2

Setting up New Accounts – the right way – types of customer.

Understanding Export Credit including INCOTERMS & documentation.

Consumer Credit – overview.

– Module 3

Dealing with queries and disputes.

Internal Communications.

Documentation – discover, what makes it work.

– Module 4

Collection Methods – phone – letters – e-mails – text.

Winning approach to collections.

Reporting.

Accounting

The **Accounting** subject is specifically designed for Credit professionals – not accountants – you will never have to prepare a set of accounts but you have to be able to understand them and make important decisions on that basis – this section shows you how. It also incorporates some simple and effective scoring models to improve your understanding of your customers.

OBJECTIVES:

As a result of completing this module the student will have a greater understanding of Accounting and its relation with Credit Management.

SYLLABUS CONTENT:

Module 1

- Introduction to Accounting
- The Accounting Equation
- The Trial Balance and Adjustments
- Preparation of Financial Statements
- The Trading Account

Module 2

- Preparation of Financial Statements
